2013 Sedan & Utility Police Interceptor Digital Speedometer Software

Date: 21 October, 2012

Models Affected
2013 Sedan and Utility Police Interceptors beginning Job #1 2013MY.

Purpose
This bulletin provides the Ford dealership technician with a process to download and install the digital speedometer feature to Sedan and Utility Police Interceptors.

Digital Speedometer Update Summary
A digital speedometer was added to the instrument panel cluster message center mid-cycle 2013 model year production. For vehicles produced without the feature, an update to 2013MY Sedan and Utility Police Interceptor message center / cluster is available through a Ford dealer to provide the digital speedometer display.
Dealer download for digital speedometer is available effective 1/09/2013 in release 82.03.

DIGITAL SPEEDOMETER SOFTWARE DOWNLOAD PROCEDURE

Description
Some customers may request the Digital Speedometer Display feature installation. This software upgrade is not a warrantable repair.

Applications
2013 Police Interceptor – Sedan and Utility without the Digital Speedometer Display feature.

Action
Reprogram the Instrument Panel Control Module (IPC) to the latest calibration using IDS release 82.03 and higher.

WARRANTY STATUS: Information Only – Not Warrantable.
